### SECTION V: FIRE-FIGHTING MEASURES

**Extinguishing Media:** Water fog, foam, dry chemical powder, carbon dioxide (CO<sub>2</sub>). DO NOT use water jet as an extinguisher as this will spread the fire.

**Specific Hazards from the Chemical:** During fire, gases hazardous to health may be formed.

**Hazardous Combustion Products:** No unusual fire or explosion hazards noted.

**Protective Equipment / Precautions for Firefighters:** Self-contained breathing apparatus and full protective clothing must be worn in case of a fire. Move containers from fire area if it can be done without risk. Use standard firefighting procedures and consider the hazards of the other involved materials.

### SECTION VI: ACCIDENTAL RELEASE MEASURES

**Personal Precautions:** Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing for clean-up. Do not breathe mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection see Section 8.

**Environmental Precautions:** Prevent further leakage or spillage if safe to do so. Do not contaminate water. Avoid discharge into drains, water courses or onto the ground.

**Methods for Cleaning Up:** This product is miscible in water. Should not be released into the environment.

**Small Spills:** Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

**Large Spills:** Stop the flow of material if possible without risk. Dike the spilled material where possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place in containers. Following product recovery, flush area with water.

Never return spills to original containers for re-use. For waste disposal, see Section 13.
