

# Drag Slat Cleaner

## Tar and Asphalt Remover

### Description

Drag Slat Cleaner is an emulsion cleaner recommended for removing oils, glues, grease, vegetable fats, tars and asphalts. Drag Slat Cleaner replaces caustics and solvent cleaners including chlorinates, chlorofluorohydrocarbons, aliphatic and aromatics in dip coarse or overflow spray.

### Product Application

Drag Slat Cleaner may be applied by spray, poured, brushed, or by soaking. Use brush to agitate and then rinse. Prior to application, test a small spot to ensure compatibility especially on painted and plastic surfaces. Can be applied by automatic spray system on drag conveyors.

Trying to decide which equipment is best? Solutions<sup>2</sup> is a vendor for a large variety of equipment manufacturers. Contact your sales rep or Solutions<sup>2</sup> support for additional makes/models of equipment for your application needs.

## RECOMMENDED EQUIPMENT

Handheld Sprayer

Slat Conveyor Sprayer

\*\*When finished using equipment rinse out with water for longevity
